SOFTWARE DEVELOPER

Frontend Developer skilled in React, Next.js, and Tailwind CSS, focused on building fast, responsive, and production-ready web interfaces. Currently contributing at Frovo as a Frontend Developer, where I work on scalable UI components, admin dashboards, and real product workflows. Passionate about clean UI/UX, API integration, and writing efficient, reusable code.

TECHNICAL SKILLS

Languages : JavaScript (ES6+), TypeScript, Python
Frontend : React, Next.js, Redux, HTML5, CSS3, Tailwind CSS
Backend : Node.js, Express.js
Databases : MongoDB, MySQL, PostgreSQL, Firebase
ORM/ODM : Prisma, Mongoose
Developer Tools : GitHub, VS Code, Postman

EXPERIENCE

Software Developer

Frovo (Full-Time | Remote)

Oct 2025 – Present

- Building responsive UI components and dashboards using React, Next.js, and Tailwind CSS.
- Developing internal tools and production-ready features for Frovo's ecosystem.
- Integrating REST APIs and implementing reusable, scalable component structures.
- Improving UI/UX, fixing issues, and collaborating on new product workflows.

EDUCATION

Pillai HOC College Of Engineering and Technology

B.E in Computer Engineering

Khalapur, Raigad

Nov 2022 – July 2025

Government Polytechnic Vikramgad

Diploma in Computer Engineering

Vikramgad, Palghar

June 2019 – Aug 2022

PROJECTS

Frovo Portfolio Website

Next.js, React, Tailwind

- Developed the official Frovo company website with modern UI/UX and responsive layouts.
- Implemented SEO-friendly structure, optimized performance, and deployed on production.
- Delivered a professional, scalable frontend accessible at frovo.in.

Frovo Super Admin Panel

React, Next.js, Tailwind

- Built dashboards and modules for managing users, roles, brands, and product workflows.
- Implemented reusable UI components, validation, and REST API integrations.
- Designed internal interfaces used in daily operational workflows.

Frovo Warehouse Management System

React, Next.js, Tailwind

- Developed inventory tracking, stock update, and warehouse operation modules.
- Created clean tables, forms, and responsive layouts for efficient usability.
- Collaborated on workflow logic to support warehouse operations.

Klimate – Weather App

Next.js, OpenWeatherMap API, Shadcn

- Built a real-time weather application with city search and current weather data display.
- Integrated OpenWeatherMap API for fetching live weather information and forecasts.
- Designed responsive UI using Shadcn components and deployed on Vercel.
